3M 8200 PARTICULATE RESPIRATOR N95

Model WEL3M8200

## Product specifications

This economical disposable N95 particulate respirator is designed to help provide reliable worker respiratory protection against certain non oil based particles. 3M™ Particulate Respirator 8200/07023 (AAD), N95 is an economical, disposable particulate respirator that is designed to help provide reliable respiratory protection of at least 95 percent filtration efficiency against certain non oil based particles. This respirator is designed for use for particles such as those from grinding, sanding, sweeping, sawing, bagging, or processing minerals, coal, iron ore, flour, metal, wood, pollen, and certain other substances. It may also be used for liquid or non oil based particles from sprays that do not emit oil aerosols or vapors. This respirator can also help reduce inhalation exposures to certain airborne biological particles (examples: mold, Bacillus anthracis, Mycobacterium tuberculosis), but cannot eliminate the risk of contracting infection, illness, or disease

- Recommended for light duty or short duration applications such as grinding, light sanding, sweeping or working in other dusty environments
- Features nose clip with foam padding
- NIOSH approved for at least 95 percent filtration efficiency against certain non-oil based particles
- Lightweight, disposable particulate respirator is an economical choice for respiratory protection
- Adjustable noseclip helps provide a custom and secure seal
- Two-strap design with four point staple attachment helps provide a secure seal
- Compatible with a variety of protective eyewear and hearing protection
- Qty: 20 per box
