

3 M 8576

3M 8576 NLAG P95 RESPIRATOR

Model WEL3M8576

Product specifications

This disposable P95 particulate respirator helps provide reliable respiratory protection against certain oil and non oil based particles. The respirator features a carbon layer to remove nuisance levels of acid gases. See product warning for use details.* 3M™ Particulate Respirator 8576, P95, respirator is designed to help provide reliable respiratory protection of at least 95 percent filtration efficiency against certain oil and non oil based particles. Carbon filter material helps provide relief against nuisance levels of acid gases*. Soft inner material provides added comfort while the cup shape design helps make the respirator feel spacious and durable. M Noseclip adjusts easily for fewer pressure points and greater comfort. The respirator incorporates 3M's proprietary technology with advanced electrostatically charged microfiber filter media designed for ease of breathing. Braided headbands are designed to help enhance comfort and increase wearability. Recommended applications may include glass etching, chemical processing, paper processing, aluminum smelting, and brewing operations in which particles and nuisance levels of acid gases such as sulphur dioxide, hydrogen fluoride, and/or chlorine may be present. Additional applications include grinding, sanding, sweeping, bagging, and other dusty/oily operations. Note: This respirator is not intended to act as a faceshield or to give benefits beyond helping to improve respiratory protection. Fitted with a 3M Cool Flow™ Exhalation Valve, this respirator is suited for work situations involving heat, humidity, or long periods of wear. The proprietary 3M Cool Flow valve is designed to release hot, humid exhaled breath quickly, helping to prevent an unpleasant build up of heat inside the facepiece a significant cause of discomfort to respirator wearers

- Lightweight construction promotes worker comfort
- NIOSH approved P95 for at least 95% filtration efficiency against certain oil and non-oil based particles
- Carbon filter material helps provide relief against nuisance levels of acid gases
- 3M™ Cool Flow™ Exhalation Valve – proprietary one way valve for easy exhalation and cool comfort
- M-Noseclip adjusts easily for fewer pressure points and greater comfort
- Suited for work situations involving heat, humidity, or long periods of wear
- Braided headbands are designed to help enhance comfort and increase wearability
- Advanced Electrostatic Media - with highly charged microfibers to enhance the capture of airborne particles while allowing you to breathe easier
- Spacious and durable
- Qty: 10 per box
