

**UPC #:** 35572  
**Name:** Precision Reinforced Wheel  
**Application:** These wheels are designed and manufactured to tight tolerances, the fiberglass reinforcement adds extra strength.  
**Description:** The characteristics of these wheels are the same as the non-reinforced wheels and should not be used unless the work piece is fixed or rotates into the wheel.  
**Suitable For:** Used on stationary grinders (Bench or Surface Grinders).  
**Diameter:** 8"  
**Thickness:** 0.06 mm  
**Arbor Hole Size:** 1 1/4"  
**Max Operating Speed:** 5,729 RPM  
**Grit:** 60 (Medium)  
**Grade:** O/P (Medium)  
**Bond:** BF (Reinforced resin)  
**Specification:** A60-O/P-BF  
**Material:** Aluminium Oxide  
**Type:** 1 – Straight wheel  
**Quantity:** 25
