

## JE 7 0 \_

CHAIN SAW PROVEST II™ FOR UPPER CHEST AND SHOULDER PROTECTION FROM CHAIN KICKBACKS

Model WELJE70\_

### Product specifications

Our ProVest™ II features our exclusive multi-layered Prolar™ padding that protects the upper chest and shoulders from kickbacks.

Sleeveless vest, with mesh back and open sides keep the sawyer cool in hot, humid conditions.

Full cut-sizes offers great fit and comfort and can be worn over most heavy coats.

Large measures 42 in. to 46 in.

Outer Layer: 65/30 Poly-Cotton Blend

Outer Layer Coating: Polyurethane for water resistance

Protective Padding: Multilayer PROLAR™ of Polypropylene and Polyester

Zipper: Nylon

Pockets Closure: Velcro®

Strap: Nylon

Buckle: Acetyl nylon

#### COLOR

Orange

#### SIZE

MD, LG, XL

### Product Features and Benefits

ProVest II™ uses the same Prolar™ pads as our proven chain saw chaps, which are certified to ASTM-1897-2008.

Protective padding in the upper chest and shoulder area protects the sawyer from dangerous chain saw kickbacks.

Prolar™ fibers "explode" on contact to jam a running chain saw.

Outer fabric is water-resistant, breathable 65/35 poly-cotton blend.

There are numerous pockets to provide functionality and convenience.
