

Lacing Anchors

Lacing anchors are primarily used in the fabrication of removable insulating blankets. They are used in conjunction with insulation washers (speed clips), mesh, cloth, lacing wire, lacing rings and other items. They are available in two styles; the traditional round hooked top, or the rectangular hooked top.

- Mild steel pins are galvanized; Tops are zinc plated.
- All mild steel pins are fully annealed.

(unless otherwise specified)

- Standard lacing anchor—round top.
- New Series 93—rectangular top.
- All required accessories also available:
 - 2-Hole lacing washers available
 - 2-Hole Lacing Top
 - Lacing Rings
 - D-rings
 - Lacing Wire
 - Wire Mesh
 - Latches

Specifications		
Material	Pin Diameter	Length
Mild Steel	12-14 gauge	2 1/2"-8"
Stainless Steel	12-14 gauge	2 1/2"-8"
